he learnt from a session at the ttsh outpatient pharmacy in january that he had been taking the wrong dose of a diabetes medicine for the past year

blanco said seniors often use multiple prescription medications, and told a story about how he was concerned for his children’s safety every time they visited their grandmother

the effects and risks of use include: anxiety, irritability, sleep disturbance, loss of appetite, possible psychosis, overdose, and addiction

- how your vision and example have illuminated the path for so many others, how your love of service
